

2023 EBC Medical Equipment/IVD Committee

Representative meeting and information exchange meeting was held.

A meeting of representatives of the Medical Equipments and IVD Committee was held on the afternoon of December 7th.

Nearly 60 representatives and related parties from 34 member companies participated, and a summary of activities for 2023 and activity guidelines for 2024 were reported and approved along with next year's budget.

This time, with the cooperation of the Embassy of the Kingdom of the Netherlands, the event was held at the Minister's Residence located to the Embassy of the Kingdom of the Netherlands.

At the beginning, Chairman Mori gave an opening speech, and the secretariat, digital health task force, medical fee subcommittee, pharmaceutical affairs subcommittee, and IVD subcommittee each gave reports. They discussed various issues and concerns as medical fee and pharmaceutical affairs laws are scheduled to be revised next year. The action plans for 2024 have been confirmed.

Please refer to Chairman Mori's greetings etc. separately.

After the representative meeting, nearly 90 people gathered, including members of the House of Representatives, the Ministry of Health, Labor and Welfare, the Ministry of Economy, Trade and Industry, and the PMDA, and were able to talk about

their daily lives and share their current situation and issues. We received warm words of welcome from the Chargé d'Affaires Theo Peters of the Embassy of the Kingdom of the Netherlands, who provided the venue. Although it was one night at the end of the year, we were able to have a successful meeting, chatting inside the official residence and on the balcony.
