

The European Business Council in Japan (EBC) is pleased to invite CFOs and Tax Managers of our member companies to a dedicated Tax Roundtable to be held at the EBC offices on 17 April from 09:00. A remote participation option will also be available.

This roundtable will focus on tax operations and tax operating models within European companies in Japan. In particular, we aim to explore how the tax function delivers robust compliance while at the same time acting as a strategic advisor to the business.

As companies face increasing automation, the growing use of AI, and potentially shrinking budgets, the role of the tax function is evolving rapidly. How are tax teams adapting their operating models? How can efficiency be improved without compromising quality and risk management? And how can tax continue to create value for the broader organisation under these constraints?

The session is intended as an interactive exchange among peers, providing an opportunity to share practical experiences, challenges, and best practices in a trusted setting.

We hope you will be able to join us for what promises to be a timely and engaging discussion.

Please confirm your participation by emailing [ebc@ebc-jp.com](mailto:ebc@ebc-jp.com).

We look forward to welcoming you.

Kind regards,  
Bjorn Kongstad  
European Business Council in Japan
